## **Jazz performances**

Conditions:

- Musical performances of ACUM repertoire, including spontaneous playing (improvisation) deriving from protected works.
- Since improvisations are not performances of fixed musical works, a coefficient of 0.4 will be applied.
- The tariff for the shows will not be less than NIS 45 (including all discounts).

Example:

- In a jazz performance where all works are 100% protected works, only 40% will be considered for the calculation of the tariff ( $0.4 * 100$ )

## **Cultural and Youth Performances Activities Program (Sal Tarbut)**

Conditions:

- Booking a show/play via the Cultural and Youth Performances Activities Program
- A show/play booked via the school principal and not via the Sal Tarbut program itself but is part of the Cultural and Youth Performances Activities Program.
- Pre-sold performances - The Program pays the producer for a show/performance.
- Type of audience: Students.
- Venues of the show: Inside or outside the school area.

Discount for a show/play under the Cultural and Youth Performances Activities Program:

- A discount of a 15% percent will be granted to a show / performance which meet the above-mentioned conditions. The tariff for the show will not be less than NIS 45 (including all discounts)

## **Acting (Performing Arts) schools plays/shows**

Conditions:

- Plays produced by the acting school
- Players are school students
- All/most of the actors don't get paid for the play
- The play is running for a period of 6 months max
- The play is an integral part of the school's teaching program.

Discount for Acting schools plays/shows:

- A discount of a 20% percent will be granted to a show / performance which meet the above-mentioned conditions. The tariff for the show will not be less than NIS 45 (including all discounts)

## **Festivals**

### Conditions:

- An event lasting over 20 hours in total.
- A variety of events and shows are held at the festival, sometimes at the same time.
- Participants in the festival pay the entrance fee to the festival once, and the payment allows entry for all the shows and activities at the festival.

### Method of calculation:

- The calculation of royalties will take into account the operating hours of the festival from its opening time until the time it ends.
- Every 20 hours of activity will be counted as one day (festival coefficient).
- To calculate the number of festival activity days, actual festival activity hours will be divided by 20 hours.
- The festival coefficient must be multiplied by the relevant license fees for one show according to the table of the Acum rates for shows, taking into account the cumulative total of the number of participants in the festival in each of the days of the festival and the percentage of protected material.

### Example:

- A festival that opened on 5/26/2024 at 5:00 p.m. and ended on 5/28/2024 at 3:00 a.m. will be calculated as follows:
- Total hours of operation: 34 hours
- Adjusting the total festival time according to 20 hours a day (festival coefficient):  $34/20=1.7$
- If a total of 7,768 people participated in the festival on all the days the festival took place, and the percentage of the material that was protected was over 50%, the license fee for the festival will then be NIS 52,171 plus VAT (according to 1.7 days instead of 3 full days).

### Clarification:

- A festival where entrance fees are charged for each show separately - the license will be given to each show separately according to Acum's table of rates for shows (for example: Israel Festival, Piano Festival).

## **Fundraising events**
